

### How to support your child with reading at home:

- Ensure you have, or develop a, bedtime story routine and an ethos for reading for pleasure and purpose.
- Provide plenty of opportunities to hear songs and stories read aloud in English and in home languages.
- Make sure your child has access to a range of high quality texts, fiction and non-fiction, reading materials and print in the environment.
- Model enjoyment in stories by reading aloud frequently.
- Make sure your child has regular opportunities to talk about what has been read to them and encourage them to ask and answer simple questions and make predictions.
